News Digest.

The bill to submit the question of a revision of the Constitution to the people has been defeated in the Assembly.

The Democrats in the Senate are endeavoring to kill the Homestead Law, by substituting the proscriptive measure drafted by Senator JOHNSON, of Tennessee, for Mr. GROW's liberal bill, which recently passed the House.

We have accounts of destructive fires at Rockford and Savannah, Ill. Winnebago Hall and several adjoining buildings were burned at the former place, and three warehouses filled with produce at the latter.

Accounts from New Mexico state that the Navajoe Indians are committing extensive depredations in that Territory—over 100,000 sheep and a large quantity of other stock having been run off during the past winter.

Two men named WILSON and HULL, who kidnapped a negro named JOHN BROWN, in Lancaster county, Pa., recently, and then tried to sell him in Maryland, have been arrested at Baltimore.

The shoemakers' strike at Lynn continues. On Friday the strikers turned out in procession to the number of 6,000.

A Republican City Ticket.

It will be seen that the Republican Committee have called a Convention at the Court House next Saturday, to nominate candidates for the various City offices to be supported, and, if possible elected at the approaching Charter Election. This is a sound movement, and one which, if taken long ago, might have been the means of saving our City from its present state of bankruptcy and disgrace.—It is eminently proper that one or the other of the parties should be responsible for the doings or misdoings of public officers, and if the tax-payers of the City have not had enough of Democracy by this time, the Republicans can well afford to brook defeat until the so-called Democrats have as thoroughly effected their own ruin as they have that of the City.

Let the business men and property holders, therefore, attend the primary meetings next Friday evening, and see to it that they are not controlled by the tax-eaters. We commend the truths which are so forcibly set forth by the Republican Committee to the candid attention of every person who has the welfare of our City at heart.

Third Judicial Circuit.

At a meeting of the Green Lake County Bar, held on March 13th, at Berlin, it was resolved that a meeting of the Attorneys of the Third Judicial District, irrespective of party, be held at the Minnesota Junction House, in Dodge County, on Thursday, the 22d day of March, at 1 o'clock P. M., to select a suitable Independent Candidate to be chosen Judge of said Circuit at the coming election.

GARRISON ON SEWARD.—Garrison's Boston *Liberator*, the organ of the Abolitionists, is no better satisfied with Gov. Seward's recent speech than the Cincinnati *Gazette*, or the pro-slavery press. It denounces it for its moderation, and a surrender of what it is pleased to call the previous radical views of Gov. S., and intimates quite distinctly that he has forfeited the confidence of the ultra Abolitionists. Candid and unprejudiced men of all parties, however, see in it no surrender of any opinions he ever expressed.—While fanatics on the one side, and the blind adherents of some personal favorite on the other, make it an occasion for giving utterance to their bigoted or partisan feelings, the *people* everywhere, who love freedom and hate slavery, enthusiastically approve it, and are resolved to sustain its author.

EPISCOPAL.—Bishop Kemper visited this part of his Diocese last week;—preached at the Episcopal Church in this city, on Friday morning and again at evening, holding confirmation, assisted by the Rector Mr. Adderly, and the Rev. Mr Greene. On Saturday he proceeded to Wausau, where he preached twice, on Sunday, and confirmed four persons, in the church under the charge of the Rev. Mr. Greene. Returning on Monday, he preached and confirmed again, in the evening, at the church in this city; and on Tuesday resumed his journey to the South. Nine persons were added to the church at this place. The Bishop, now over 70; still retains all his powers in a remarkable degree—none more useful or incessant in labor and good works.—*Wis. Pinery.*

BROKE JAIL.—Two prisoners confined in the "Red House," in this city, named Jacob Braun and John Kessler, escaped on the night of the 11th inst. They escaped thro' a hole in the floor.

The Sheriff has offered an $100 reward for their capture.

Braun is about 5 feet 10 inches in height, heavy and strongly built, blue eyes, reddish hair, wore a light gray coat, rather course boots, and cotton plush cap. Aged about 33 years.

Kessler is about 5 feet 6 inches in height, brown hair, short whiskers, wore a long, blue German made coat, coarse new boots, dark cloth pants, and cloth cap. Aged about 45 years.

A MAN in New York has invented a new nozzle for hose pipes. The invention consists of three nozzles of different sizes fastening to a revolving plate eccentric to the end of the pipe, so that by simply turning the plate either of the nozzles can be brought to the end of the pipes. The advantage is that when it is necessary to change from a small to a large stream, or the reverse, during the progress of a fire, instead of having to unscrew the pipe, the change can be made by simply pushing upon a spring.

WHITE DENT CORN.—Mr. William Martin, a successful farmer, residing in this city, and whose farm is contiguous, brought to this office the other day, an ear of White Dent Corn, of his own growing. It is as large, heavy, and as good a specimen of the kind as is seen in the best fields of Illinois—and unmistakable test of the soil and climate of the St. Croix Valley.—*Horicon Chronicle.*

MR. ECKLES, Deputy Sheriff, was in town on Tuesday, for the purpose of arresting parties who participated in the initiation of a gentleman from Plover into the mysteries of Maltaism. It seem that a knowledge of these time-honored rites are not very favorably received by some portions of the community.

CONNECTICUT ELECTION.—Desperate efforts, it is said, are being made in Washington to aid Democrats in carrying the Connecticut election; and, as a means of inciting State feeling, promises are freely made to nominate Mr. Seymour for Vice-President at Charleston.

THE HON. ABE LINCOLN has been visiting the Five Points House of Industry, in New York, and making addresses to the children.

SEVEN THOUSAND copies of "La Femme" were sold in a week after its publication day.

THE CITY.

Meeting of the Board of School Commissioners.

A meeting of the Board of School Commissioners took place on Saturday evening, at their rooms. President O'NEILL in the chair. Eleven members present.

Commissioner BADE stated that a proposition had been made that the Superintendent's books be thrown open during his absence, and that such proposition had evidently arisen from the present state of public excitement. That he had heard all sort of silly rumors—but thought that so long as the Superintendent was not here to vindicate his own character, the Board ought not take any action.

He also referred to an article which appeared in the *Free Democrat* as "scurrilous;" and branded the several charges therein concerning the pic-nic and fuel, and gas fixtures as "unmitigated lies," saying whoever the gentleman or loafer is who wrote them, I call him a liar," and moved that the proprietors of the *Free Democrat* be requested to furnish the author's name.

Mr. SCHLOEMILCH opposed the motion.—If the board feel aggrieved let them commence a suit.

Mr. CULLIGAN did not believe in hunting up whatever the *Free Democrat* or *Sentinel* might say, but to do their duty coolly and dispassionately, regardless of the rumors and unfounded charges made outside. He knew of no specific charges made against the Board or any member of the Board. It was no doubt a duty owed to the public to render an account of their stewardship, but to be coerced and driven into an investigation by such anonymous articles was undignified.

Mr. BADE had his reasons for wishing to find out who wrote that article. It was barely possible that it might be traced to the Seventh Ward High School—might even have been written by that Great Mogul, Mr. McKINDLEY himself.

Mr. REED thought it was no more than right to ask the name of the writer. In regard to the wood bill, he stated that there were no orders issued that were not signed by the Committee and Superintendent. He also spoke of the teachers' meeting on the 13th, and expressed his surprise that any such proceedings should have taken place, as were reported.

He thought when he first saw the report that it was got up by the principal of the Seventh Ward High School, and alluded to him as the sole cause of all the trouble in the schools. He was sorry the gentleman was not present, he disliked to say anything behind his back; but he did not wish teacher to throw unmerited blame on the board, he wished it placed where it belonged.

As for the pic-nic he for one was in favor of it, cost what it might, (here several members of the board said, "so was I,") and he was now in favor of giving the gentleman in question notice that his services would not be wanted after the close of the present term.

Mr. REED reviewed Mr. McKINDLEY's course rather severely, from the time he left Kenosha to the present, and closed by stating that he thought the books of the board were always open to the public during office hours.

On a resolution directing Mr. CHAPMAN, of the Board of Regents, to pay the amount due the Normal School of this city to Mr LARKIN, considerable debate ensued, and Mr. CHAPMAN and Mr. LARKIN both were allowed to speak and make explanations; but were unable to state what the exact sum was.

Mr. BADE thereupon said that the whole thing was too blind, it might be a resolution to pay $5, or it might be $500: so he moved to strike of the name of LARKIN, and insert the name of the Superintendant, RUFUS KING.

The previous question was called and the resolution adopted:

Resolved, that a Committee of three be appointed to report at its earliest convenience, an account of the transactions and expenditures of this board for the past three years, and that said report be published in one English and one German paper.

Amended to include the Superintendent with the Committee. Adopted as amended.

A communication was then read by the Secretary, from certain school teachers, who had participated in the *indignation* meeting of the 13th. The substance of which was to condemn the reporter of the SENTINEL for making a misrepresentation of the meeting, and to smooth over their own actions in the premises. This communication was ordered to be published, and the Board adjourned.

ABOUT THAT INDIGNATION MEETING.

The reporter of the *Sentinel*, in view of the fact that several of the teachers who attended the meeting on the 13th, have seen fit to censure the report which was made of their doings, deems it but justice to state

That his presence upon that occasion was both unexpected and unsolicited. The teachers had met to have a pow-wow over their grievances, and the fact that when the presence of a reporter was noticed, no one could be found willing to act, or even disclose the object of the meeting for some time; and the President himself declaring he did not know what they came there for, was sufficient proof of the dampening effect our humble presence occasioned.

However, when the ice became broken, Prof. LARKIN and others, whose names and remarks we will publish, if necessary, confined themselves principally to the *extravagances* in the management of the Milwaukee schools. The Professor—who stood within two feet of us—declaiming loudly against extravagance in gas fixtures and fuel and carpet, and others following in the same strain about a pic-nic. These facts can be verified under oath by more than one party, if Mr. LARKIN desires it. The foolish attempt—now that the thing has come to the Board of School Commissioners through the unexpected presence of a reporter—to smooth the matter over by condemning the report, will not avail much.

THE LAZY INDIVIDUAL who steals the Local for the *Wisconsin*, coolly appropriates half a column of Religious matter compiled for the SENTINEL. There is nothing new or surprising in this. We have long had the credit of furnishing the good looking, but rather sterile gentleman of the *Wisconsin*, with local items; but this last steal, in magnitude, makes us think he has been in Municipal company for some time past, and contemplates running for office.

LECTURE THIS EVENING.—E. G. RYAN will lecture this evening, at the Academy of Music, for the benefit of the Catholic Orphan Asylums. Mr. RYAN is justly entitled to a place in the front ranks of our intellectual men, and the lecture will unquestionably be a brilliant effort. The friends of the orphans will bear in mind that Mr. YOUNG has volunteered the use of the Academy, and it only remains for them to fill it.

OUR FRIEND SYKES, of La Crosse, "stepped in" on Saturday. He is on his way to New York, and though he has hardly recovered from the effects of THAT SURPRISE PARTY, we have no doubt—if he was to try—might get enough advertisements in the city of Gotham to warrant his buying the *Republican* and running it as a *supplement.*

The New City Hall Question.

For the Sentinel.

MILWAUKEE, March 15, 1860.

MR EDITOR:—We send you, for publication, the report of the committee selected to consider the subject of the proposed alteration of Market Hall for city offices, by a meeting of citizens, held at Kilbourn's Hall, January 19, 1860, and which that meeting voted to publish at the time, but the injunction referred to having been dissolved, and work commenced on the building, its publication was not made. Recent events, however, having proved that the objects of that meeting, and the report then made, were correct, many of those present at that meeting have requested the committee to publish that report, and we herewith enclose the same to you, requesting you to publish the same. Notwithstanding the statement of Mr. MIX, the architect and superintendent, in the SENTINEL of the 20th of January ult., that the alteration of the Market House, as proposed, would cost but $5,000, if that gentleman will meet us at a meeting of the League, we will show to him—to his satisfaction and that of every tax-payer in the city—that such alteration will cause an expense to the city, of $35,643; and that the whole plan of altering the Market House was and is a swindle on the people of this city.

JOHN ROSEBECK,
ALBERT GRANT,
Committee.

At a meeting of the citizens of Milwaukee, at Kilbourn's Hall, January 19, 1860, J. A. PHELPS Chairman, and FRANCIS HUEBSCHMANN Secretary, the following report was unanimously adopted, and voted to be published in all papers in this city.

The committee to whom was referred the matter of investigating the title and condition of the Market House and land on which it is located, in Seventh Ward, relative to its proposed alteration into a City Hall, according to a resolution of the Common Council, have given the subject some attention, and make the following Report:

TITLE.

That the Market House building is located on lots number 5 and a part of lot number 6 in block number fifty-five (55) in Seventh Ward. The First Ward of the city of Milwaukee has a good title to lot 5; but lot 6, on which the front of the building stands, is claimed by Morgan L. Martin, of Green Bay, who has instituted a suit against the city for a recovery of possession, laying damages at a heavy sum, and which suit is now pending in the Milwaukee Circuit Court.

By an examination of the records of conveyances at the Register's Office of Milwaukee County, the title to lot 6 appears to be good in Morgan L. Martin. In 1851 David M. Hard conveyed the lot to the First Ward of city of Milwaukee, for their use, by a quit claim deed, which, however, conferred no title. The nature of the defense and the special grounds upon which the city rely in this suit not being apparent upon the records, the committee cannot judge of their validity, and can only state in their opinion the title to lot 6 is at present uncertain and cannot be relied upon by the First Ward.

In case Morgan L. Martin confirms his title to lot 6 by a decision in his favor in the present suit, the First Ward will be constrained to purchase at his terms, or abandon the property to him. Martin is said to demand the sum of $20,000 for the property.

THE BUILDING.

The size of the Market House and general dimensions are as follows: It is forty feet wide, fronting on Market Square, so called, and one hundred and twenty feet in depth; thickness of walls, sixteen inches; first story on ground floor is 8 feet, 6 feet being below the level of the sidewalk; second story is twelve feet and third story 18 feet. The third story is now a public hall, and the roof of the building, which is now in a very bad condition, is entirely sustained by the walls from the second story.

In every respect, in size, proportion, strength of walls, heighth of rooms, style of architecture, the present building, when altered, is of a very inferior class, and its modification into a suitable and respectable City Hall as contemplated by the resolution of the City Council, must not only involve the City in a large expense, but when completed, in the opinion of this Committee, will be inconvenient and unsatisfactory:

The Committee have seen no plans or specifications made of proposed alterations, but have made an estimate of the cost to put the building in a suitable condition for the reception of the Common Council and the several city officers; and they are of opinion it can not well be done for less than $10,000, to which must be added the furniture, safe doors, and furnishing the several rooms $5,000 more—estimating according to the expenditures on that account heretofore.

In remodeling and altering the Market House for above purposes, some changes cannot be made without danger to the whole building, as for instance, the windows in the hall are of the size of an ordinary dwelling house and to adapt their size to a proportion with the building, must be enlarged from 2 feet 11 inches by 7 feet to 4 1-2 feet wide by 12 feet high and in so doing, so much of the walls of the building in upper story would be taken away that what remained would be inefficient to sustain the roof which now relies upon them for support. And in case the roof is raised four feet as the committee understand has been proposed, unless some other supports are supplied, it would be very insecure.

There does not seem to be left on the lots, any room for adding to the building, and it is a fact worthy of notice now, that the southwest corner of the building is four feet on the sidewalk. The present proportion of the the building, 40x120, therefore cannot be changed. To make a useful, convenient and comely building, its proportions should be 60 feet wide by 90 feet in length. There is not a foot of ground on present lots either to enlarge or use for any purpose.

In the opinion of the committee, the value of the Market House building, considered in reference to an alteration into a suitable City Hall, is just the value of the brick and lumber of which it is composed after the building is taken down; and the Market House as it now stands is worth more to the city for the purposes for which it is now used, than it would be when the alteration as contemplated is made.

NECESSITY OF ANY CHANGE.

No reasonable motive for any present change in the domicil of the city government has been presented, except the present exposure of the city records and valuable documents to fire.

This is true; there is a large amount of papers involving important interests to citizens, entirely unprotected against fire where they now are, and it was and is the duty of those to whom their care is committed, to remedy the defect immediately, and without delay. The lessor of the building now occupied by them, in a short time can and will for a consideration, provide ample vaults, or safeguards against fire.

James B. Cross leased the rooms, now occupied by the Common Council and for city officers, for a term of five years, at the sum of $3,000 per annum. This sum was agreed upon as a fair consideration for the heavy expenses incurred in fitting up the hall and offices for the use of the city, as well as the use of premises.

This lease will not expire until nearly two and a half years, for which term the city will be indebted in the sum of $7,000, or about that sum. This amount cannot be changed without the consent of J. B. Cross, who cannot be expected to make any reduction or compromise, under the circumstances.

Mr. Cross, however, it is understood by this committee, has offered, or is willing to offer to the city, an extension of the present lease, for a further term of five years from the expiration of the present one, agreeing for the removal of three of the offices to the first floor, and to furnish suitable and effective vaults or safes to protect all the city records and papers against fire, for the sum of $800 per annum.

The committee has not been able to find any person, with whom they have conferred on this subject, who, after the safeguards against fire have been provided for, can assign any valid reasons for removing the city offices, and they therefore assert that there does not exist, at the present time, any necessity whatever for their removal.

On the other hand, the present income to the city for rents of the Market House, is $1,050, and can, by a judicious outlay, be increased to $2,000, thus providing means to pay the entire expenses of rent on the new contract of lease as before mentioned, after the expiration of the present one.

What the people want, and what they expect from their representatives in the Common Council, is economy—and especially when they, as well as the people, can be better served by its practice.

We have had enough, in fact a surfeit of lavish expenditures on the city government, and at this time when the people are enabled to pay the taxes upon their property only by extra exertion and self-sacrifice, it should not indulge in extravagant legislation like this; and before it considered the subject of the erection of a City Hall, or patching up an old building, on land it can not yet call its own, it should attempt to re-establish the credit of the city which has suffered from similar rash and hasty projects.

Men whose physical, mental, and moral qualities are insufficient to enable them to provide for themselves a living by honest enterprise, have of late years aspired to places in the city government; and if such a class of citizens, or one or two of such, can obtain a position in the Council, the public must exercise a perpetual watchfulness over their acts to protect themselves against ruin.

The Committee believe this project of remodeling the Market House to be a plan for plunder, a senseless and wicked scheme to benefit the individuals only who are engaged in carrying out the plans, at the expense of the people.

Happily, in this instance, the city can not violate its contract with the tenants of the Market House, and an injunction from the Circuit Court awaits the contractors, and keeps back the itching palms of the authors of this project.

A substantial and permanent City Hall, adapted to all the present wants and probable future ones of the city; a structure in all respects in keeping with the beauty, growth and respectability of the city, may be, and will be needed. It should be located with reference to the wants and convenience of all departments; but it cannot now be built.—There is no necessity for it, or even any change as heretofore dwelt upon. It is a matter for the people to consider; and not a subject for hasty legislation. We must learn to be just before we are generous, and the best and surest way to obtain such a City Hall as is needful, will be to husband all our present resources, and not squander our money on old brick walls which will in a few years crumble to decay.

The committee, therefore, upon a full consideration of the subject, are of opinion that a strong and effective remonstrance should be made by the citizens of Milwaukee, against the plan of altering the Market House, being assured that instead of a cost of $5,000, as stated, the city will have to pay for the change at least a sum of $22,500, and liable to a train of incidental expenses of various kinds, among which are not least, expenses and damages arising out of violation of contract, the commencement of which has already begun in the injunction suit now pending. The benefits of all which can only be enjoyed by the parties engaged in doing the work.

And they are further confident in the belief that the majority of the Common Council will give further consideration to this subject which will result in a more acceptable arrangement to the people.

ALBERT GRANT, Committee.

The Reported Removal of Capt. Cross a Hoax.

It appears that there was no foundation for the statement published in the Chicago papers of Friday, that Capt. CROSS had been removed from the command of the steamship *Milwaukee*, but like a thousand other stories derogatory to the Detroit and Milwaukee Railway that have originated in the same quarter, was got up doubtless with the object of prejudicing the Air-Line route in the public mind. The following from the Chicago *Journal* of Saturday, is confirmed by the officers and agents of the company here, who are justly indignant at the base fabrication:

THE STEAMER MILWAUKEE.—We have received the following communication in reference to the report that Capt. Cross had been removed from the steamer *Milwaukee*:

MR. EDITOR: The item which appeared in the *Democrat* of Thursday, 15th inst., relative to the discharge of Capt. Cross, is untrue; and as officers of the steamer Milwaukee, we do not feel like letting it pass unnoticed, particularly as it has appeared in other "dailies" of the city, thus giving a wide circulation to a false report.

We are all at loss to know upon what foundation this report was based, as we have received no such information from any one connected with the Company in whose employ we are, and we exceedingly regret that reports derogatory to the character of our employees, for whom we have the most profound respect, should be circulated with so little regard to truth.

By publishing the above, you will not only correct a misstatement, but will do a simple act of justice to the owners of the steamer *Milwaukee*, as well as her officers.

WM. S. CROSS, Captain.
T. FITZPATRICK, Eng'r.
D. C. WILCOX, Steward.

We see that an obscure weekly publication in this city, improves the occasion to make an indiscriminate assault upon the Detroit and Milwaukee Railway and its management; but the source of the accusations is not such as to give them any weight. No Rail Road in the West is managed by a more intelligent and obliging set of officers than it, and were are confident that all who have had any dealings with them will cheerfully bear evidence of this fact.

Republican Caucus—No "People's Ticket."

MILWAUKEE, March 17, 1860.

MESSRS. EDITORS:—A notice appeared in the Saturday evening papers for a People's Caucus, to be held in the Fifth and Eighth Wards, signed by me as chairman.—Since the same has appeared, I learn that the Republicans of the city have decided to call a Republican Convention, for the purpose of nominating officers. I also learn that the Republican committees of the several Wards have decided to nominate Republican Ward officers, and concurring with this move, the call is withdrawn.

CALEB WALL's intellectual bazaar is opposite Fess' drug store, on East Water Street. Therein may be found SHELLY and KEATS and CHAUCER and COLERIDGE. There we have a chance to bid in SHAKSPEARE himself for a pittance, and own PLUTARCH with all his lives, and GIBBON in seventeen volumes and JOSEPHUS, with cuts, for the most moderate prices. This is the place to strike up an acquaintance with the humorists—HOOD, POOLE, DICKENS and THACKERAY. This is the place for the young men bound on collecting a library, for here are standard authors ready to own you master if you will only bid (on) them.

ST. PATRICK'S DAY.—Capt. BARRY on Saturday paraded the Union Guards, *sans* arms—that is, the State's arms, though they looked well and had confidence enough in the weather to come out without umbrellas. Service was performed in the Cathedral, to which the Guards and the Catholic Total Abstinence Society repaired.

THE ANNUAL ELECTION of Chief and Assistant Engineers of the Fire Department takes place to-day at the House of Supply Hose. The candidates are all worthy men, and we expect to hear of a heavy vote being polled.

A KIND-HEARTED GERMAN WOMAN picked up a little girl in the streets about noon on Saturday, apparently lost. After an ineffectual attempt to ascertain where the child belonged, she brought her to the Second Ward Public School, where she was recognized by one of the pupils, and speedily returned to her parents. Pretty good method of disposing of lost children.

For many years all attempts to place the city government in capable and honest hands, by means of democratic nominations or people's tickets, have proved disastrous failures, and the resulting evils have finally culminated in unparalleled and intolerable official corruption. The time has now come when the Republicans of Milwaukee are called upon to perform a grave duty to the city by nominating and, if possible, electing to the city offices honorable and fearless men, and also, to discharge an obligation to their own great cause, which they have already too long neglected, by effecting a thorough and permanent city organization.

If the nomination of a Republican ticket for the city election could prove an obstacle to the removal or mitigation of the grievous municipal evils under which we suffer, that would, of course, be a strong reason for postponing still further a distinct city organization. But the experience of the last five years shows that no relief can be expected from a people's movement, which is always controlled and used by disappointed and unworthy aspirants for democratic nominations. We have already incurred too much disgrace by contributing to the election of corrupt officers through these people's movements. At this time, when the election involves not only the peace and good order, but also the gravest financial interests of our city, we should be inexcusable, if, under the plausible pretext of a people's ticket, we should incur the risk of a league with thieves and robbers. For it is manifest that a people's movement at this time must embrace large numbers of dishonest men, and if successful carry into power some of the most unworthy office-seekers of our city.

The Republicans are therefore urged to elect delegates, who will nominate the *very best men*—men who are not intriguing, worthless office-seekers, but honest, responsible citizens; men of *clean hands*, in which our citizens will deem our municipal interests secure; men who will *command the support of the tax-payers* of this city, and attain as well as merit success at the polls.

WASHINGTON, March 17—3 P. M.

The homestead bill which passed the House, was referred in the Senate to the Committee on Public Lands. That Committee recommended the striking out of the enacting clause and inserting the Senate bill drafted by Mr. Johnson of Tenn. Mr. Johnson's bill excludes, among those who shall have the benefit of the public lands, single men over 21 years of age, widowers without children, and foreigners who may declare their intentions after the passage of the bill, and only allows those who may be recipients of land under the bill, to receive alternate sections. The House bill includes the parties named above. It is said that the Republicans will accept that bill if they cannot get the one which passed the House.

SOUTH AND NORTH:
OR,
Impressions Received During a Trip to Cuba and the South.
BY JOHN S. C. ABBOTT.
1 vol., 12mo, 352 pages. Price $1.
VOICE OF THE PRESS.

From the New York Independent.

The VERY BEST BOOK ON SLAVERY YET ISSUED. Sound, judicious, kind, Christian, and most timely and faithful. * * * The author rehearses in a graphic way the measures of violence which "SOUTHERN AGGRESSION" has of late so systematically pursued: and, while condemning the crazy zeal of John Brown, he shows that his heroic self-denial for the oppressed puts to shame the coward fury of the South for oppression. Yet the tone of the book, while candid, frank and manly, is always kind and gentlemanly;

NOT SECTIONAL BUT FRATERNAL: not partizan but Christian. He points the South to the simple remedy for existing evils, by substituting wages for the lash, free labor for coerced toil.

From the New York Tribune.

Its animated descriptions, and the frankness and cordiality of its tone are adapted to give it a favorable reception, even with readers who differ most widely from him in opinion. * * * The topics to which this volume is devoted, and the spirit in which they are discussed, though they may arouse a tempest of opposition from those who regard silence as the only guaranty of safety, will secure it a wider circulation among the Friends of Freedom throughout the country.

From the Atlanta (Ga.) Confederacy.

It is a contemptible *Abolition* production, written in a very readable style, and well calculated to taint the minds of the young.

From the Detroit Christian Herald.

It furnishes valuable information on the questions now agitating our country.

From the Hartford Evening Press.

His impressions are such as would be derived by any honest fair-minded Northern man. It is warm, direct, eloquent.

From the New York Observer.

The book is intensely and avowedly abolition.

THE SENTINEL.

DAILY, TRI-WEEKLY & WEEKLY

RUFUS KING, Editor.

MONDAY MORNING, MARCH 19, 1860.

REPUBLICAN NOMINATION.

FOR CHIEF JUSTICE OF THE SUPREME COURT,

A. SCOTT SLOAN.

The Homestead Bill—Hon. Mr. Grow.

It must be admitted that the Republican party are rapidly making a reputation in Congress for prompt business qualities, and for earnest purpose to carry out the reform measures they have promised to the People. Already has that skillful and efficient legislator, passed through the House a bill to reduce and equalize the mileage compensation of Members of Congress, under which, in times past, the grossest abuses have sprung up. As an instance, the California and Oregon members have received about $5,000 mileage—that is, traveling expenses in coming to Washington and returning home, when the actual expense of the trip has, perhaps, never exceeded $500. And in the case of California Senators, who have had to attend special sessions of the Senate, on the inauguration of a new President, these enormous mileage fees would be due, by construction, under the old system, whether or not the Senators traveled one foot of the way home and back. The payment of mileage to other Senators and Representatives, has been in the same proportion extravagant and absurd. Mr. Sherman, notwithstanding the prejudices and opposition of some of his own party, has crushed this abuse, by a sweeping majority in the House, and the bill will go to the Democratic Senate. Let that body defeat the measure, if it dare. It is estimated that this reform will save to the United States Treasury $100,000 a year.

Next comes the success of Hon. Mr. Grow of Pennsylvania, with his Homestead Bill. This is the greatest popular triumph ever achieved in American legislation. The bill gives a free home to every head of a family who shall honestly and permanently settle upon and improve it. The strength of our republic consists, not in deserts of wild land, but in the arms of grateful and brave citizens. We want people—not a land empire for speculation. And that is a fortunate government that can give a home and get a useful citizen in return. The effect of the Homestead Bill will be most happy upon the poor and crowded denizens of the Eastern States and cities. It will encourage matrimony and emigration among a class that is now *forced* to live in isolation and vice. It will start anew the stream of emigration from Europe, which will bring with it its treasures of capital as well as of labor, to swell the volume of national power and wealth.

To the West as a part of the American Republic, having in some respects distinctive interests, the Homestead Bill is of inestimable value. It will pour into our Western States and Territories *People—People*—the crying want of our forests and prairies slumbering in the stillness of aboriginal solitude. With population will come the *political power*, and when the mighty West—the Free West—gets control of our Government, the bickerings of the "North" and the "South" will be lost in the grand march of the Federal Union revolving around its *Western Centre*.

We hail Mr. Grow, of Pennsylvania, as a National benefactor. He has championed the Homestead Bill with zeal, courage, skill and success. The establishment of his policy will inaugurate a new era in the political history of North America, and speed the day of the inevitable dominancy of a just, conservative Government, over the discordant elements that for forty years have been endeavoring to disturb the principles and policy of the founders of our Republic.

Mr. Grow is not properly appreciated by the country, and we therefore cheerfully avail ourselves of this opportunity to speak of him as he deserves. He has been represented as a bitter and factious partizan. His manner is a little sharp, and has aided in giving this impression. But it is not the real nature of the man. He is earnest, sincere, truthful, amiable and conservative—diligent in business, irreproachable in life, and devoted to the best interests of the people, as evinced by his Homestead Bill. A noble future to Galusha A. Grow.

THE NEW YORK TABLET, ORGAN OF THE IRISH CATHOLICS OF NEW YORK, ON SEWARD'S SPEECH.—We commend to the notice of the Democratic Scribblers in this State, who attempt to create the impression that Seward's speech was a small affair, to what the N. Y. *Tablet*, a widely influential organ of the Irish Catholics of New York, says. The *Tablet*, of March 10, has the following:

"The event of the week in Congress, was however, the speech of Mr. Seward. The manner in which that distinguished man has been abused and calumniated by such papers as the infamous *Herald* of this city, the *Express* and other unscrupulous sheets, had disgusted honest men of all parties, and honest men of no party, that all perused Mr. Seward's speech with eagerness and even with sympathy. We say nothing of the political ideas advanced in that discourse, for they are out of our resort here, but it was a triumphant and annihilating reply to the shameful accusations heaped upon Mr. Seward, while it did not even dignify them by alluding to them. It struck the mercenary presses dumb, and it took them two days to get breath enough to bark at it. As a calm, dignified and patriotic discourse, it was worthy of the palmiest days of the U. S. Senate. All Mr. Seward's honorable political opponents—all the respectable Democratic journals, with a candor which does them honor, do justice to this effort of a high minded man, and a sincere lover of his country and the Union."

A BEAUTIFUL CHARITY BY MR. SEWARD.—There is a friend of ours, who says he was out visiting lately, where there was a lady—a plain good body, from the region of Auburn, N. Y., the home of the great Senator. She says that Mr. Seward was once travelling and stopped at a country hotel, where the general topic, for the time was about an Irish neighbor near by, whose wife had been just made the mother of three fine children at a birth. The landlord representing that the family were poor, Mr. Seward proposed to go with him and make a call. The mother learning that it was Gov. Seward who had called on her—requested him to name the triplets. What to do, he hardly knew, but the mother insisted—whereupon he said he would do so, if she would allow him to name them—all girls—after the three ladies he thought the most of—his mother, his wife and his daughter. "Nothing," said the mother, "would please me better"—and so they were named. As Mr. Seward left, he gave each of the children ten dollars, saying that he would like to hear from them, and if they did well, perhaps he might do a little more for them sometime. In process of time they were left orphans, and their case was reported to Mr. Seward. He obtained them each places where they might go to school, and he is now educating them. They are at present 15 years of age, and are the most promising of the students in the school.

This little story shows us the great Senator in a new light—and is quite as creditable to his heart as his great speeches are to his intellect.—*Aurora (Ill.) Beacon.*

ANNUAL CONVENTION OF GENERAL TICKET AGENTS.—The annual Convention of General Ticket Agents of the various Railroads, will be held at Pittsburg on the third Wednesday in April, for the purpose of arranging passenger rates between the West, Southwest, and East. It is expected that the Convention will be largely attended, as the questions which will come before it are of great importance to the Railroad interests of the country. We learn that the shorter lines to New York, Baltimore and Philadelphia will insist upon a comparatively low rate of fare, and the fact will doubtless give rise to an animated contest in the Convention. The proceedings will be looked to with no little interest.

THE NEW HAMPSHIRE ELECTION AND THE DOUGLASITES.—The Washington correspondent of the Cincinnati *Gazette* telegraphs that "the result of the election in New Hampshire, like that in Chicago, has had a most dispiriting effect on the Douglasites. They desired to show the Southern men that the Little Giant was omnipotent at the North. Failing in this, his chance is gone. If Connecticut goes Republican, the last nail will have been driven into his coffin."

KENTUCKY DELEGATES.—The Kentucky State Central Committee have issued the following call:

"The several Congressional districts will proceed to elect two delegates and two alternates the Republican National Convention, to meet at Chicago, Ill., May 16th 1860. The Senatorial delegates are already appointed, and a State Convention will be called in due time at Richmond, Ky., to appoint State electors."

A WOMAN VOTER.—Much amusement was created at the polls of the Third Ward, at the recent election in Alexandria, Va., by an attempt to carry "Woman's rights" into active exercise. The wife of a voter who was confined to bed by illness appeared and demanded to cast her husband's vote. Upon a refusal she became quite irate, and in reply to the jeers of some of the crowd, seized a brickbat, and for a while cleared the front of the polls. She was at length quieted and conducted away.

CURIOUS SURGICAL OPERATION.—The New Orleans correspondent of the Mobile *Register* relates the following:

I have got hold of something novel in the way of a surgical case, which I understand will be reported in full in the *Medical and Surgical Journal*. I don't know what the eminent faculty of your young Medical College will think of the treatment, in a scientific light, but the result proved it good, and perhaps they may try it, if they have a similar case to operate on. A man was brought to the Charity Hospital suffering from an aneurism of the iliac artery, which ordinarily proves fatal if let alone, and generally fatal if an incision is made to tie the artery—or rather the wound and pain and altogether are fatal. There is an instrument of French invention for compressing the artery, destroying the circulation and so causing a coagulation of blood in the artery—but this could not be applied with any assurance of success in the case, and Dr. Stone suggested that manual compression be resorted to. The suggestion was at once acted upon by twenty students volunteering for the work, my informant being one of the number. For thirty-six hours the thumb of some one of the twenty volunteers was pressed upon the artery, they being constantly relieved by each other in the laborious duty, and at the end of that time the cure had been effected, the blood having coagulated in the artery below the point of pressure, including the leg and the aneurism, which was, of course, below the part compressed. The artery is useless forever, but nature will provide new channels of circulation throughout the limb. Its supplies being exhausted, the aneurism, or ruptured tumor, has to cease its fatal progress and incontinently and in fact "dry up."

THE BENICIA BOY IN PARLIAMENT.—Our New York bruiser, John C. Heenan, it will be seen, is making something of a figure in the British Parliament, in close connection with grave debates upon questions of political and financial economy. Like Lord Byron, our Knight of the Fist suddenly "wakes up and finds himself famous." Immediately after the great debate on the Budget in the House of Commons, on the 24th, a member called attention to certain petitions praying that steps might be taken by the Government to prevent the "great mill" between the "Boy" and his English antagonist, Tom Sayers. Ministers were asked what steps they intended to pursue in this matter. The reply, in substance was, that the Chief Commissioner of Police would take steps to prevent the fight within the Metropolitan Police District, but no pledge could be given as to the steps which would be taken beyond that limit. Which amounts practically to just this: the knights of the fist may pitch into each other without let or hindrance, anywhere outside of London. Of course, this first rate notice of the affair in the House of Commons, will but operate as an advertisement extra for the bruisers, and bestow upon the beastly business in which they are engaged, a *prestige* which will largely increase the interest a certain class of people, of low tastes, always manifest in such things.

EXCITEMENT AT ELKHORN.—The village and vicinity has been thrown into an unusual excitement the present week by certain facts which have been developed concerning the abuse of a young girl, and indentured servent of Mr. Jacob Ketchapaw, living in Sugar Creek. The girl Mary A. Bailey, now nearly eighteen years of age was taken from the Milwaukee poor house some years since by Mr. Edward Winne, of this village, and by him transferred to Mr. Ketchapaw, with whom she has lived some three years. Monday of this week upon complaint of Mr. Ketchapaw's neighbors, the girl was brought to the County House by Mr. Ketchapaw, where she now lies, in a truly pitible condition, diseased, her feet badly frozen, and bearing upon her person unmistakable evidence of having been most inhumanly treated.

An Irishman in the employment of Mr. Ketchapaw, was arrested on Wednesday, on complaint of Mr. Madden, charged with assault upon the girl, examined by Justice Mayo, plead guilty, and was fined $10. His fine was paid by Mr. Ketchapaw, the next day.

The case is one which strongly appeals to the sympathies of every one and has very naturally created an intense feeling in the community.

The matter will be brought before the Grand Jury on Monday next and a full investigation had.

We deem it but just in this connection to say that Mr. Ketchapaw is a farmer of means, a member of the Methodist Church, and a man of good standing in community.—*Elkhorn Independent*, 16th.

PRIVATE THEATRICALS generally, we think, are an agonizing pleasure—that is to say—you feel compelled to discover wit in dullness, talent in obtuseness, and enjoyment in a bore. But, once in a while people of real cleverness engage in them; literary taste, intuitive histronic inclinations, and genuine humor. Then the entertainment is rendered agreeable by its naturalness—by the animation of the performers, and the hearty, genial spirit which pervades the whole atmosphere of the mimic stage. Under such circumstances the auditor is a happy man, or he is a curmudgeon—if there be any music under the ribs on his left side, it will vibrate when "Putkins" searches for his ancestry, or meditates upon the literature of a graveyard, when the unsophisticated "Phoebe" charms us with her radiant smile, "Mrs. Perkins" with her feminine adroitness, or "Dolliman" surprises us in a delineation that would do credit to any sock or buskin. Then, to see "Milly" with her milking pail, "Algeron" with his palette, "Lord Philander" with his gun, and "Diccon" in his red wig, is a pleasure to be marked with a white stone in one's memory, to last until—the next season, of course.

But a word should be said in thanks to those benevolent and self-sacrificing ladies who consent to have their apartments turned topsy-turvy for such occasions, and who receive their "auditors" with such grace, and provide for their enjoyment with such tact, as to secure to all the full meed of pleasure anticipated. Not all who desire, know how to accomplish this—yet, with others it appears so easy and natural that one forgets the tyranny that banishes chairs, sofas, tables, &c., to a "cold hall," for the accommodation of those who fill the spaces thus vacated. But woman is kind, ingenious, winning, and her smile is the light of existence—[Curtain drops accidentally.]—*Boston Post.*

FATAL ACCIDENT.—On last Friday afternoon, a young man, preparing for the ministry, by the name of Ira W. Calkins of this county, and son of Wm. B. Calkins, met with an untimely death, under the following painful circumstances:—He was attending the Biblical Institute of Concord, N. H., and having taken tea, on the above afternoon, in company with another student, started to take a walk along the Railroad track. After having walked leisurely for about a mile from the Institute, they met the track workmen coming down the rail on a hand-car, which was stopped and the two got aboard. Wishing to exercise themselves, they volunteered to turn the crank, which the workmen allowed them to do. After turning a short time, the deceased, attempting to change hands, made a mis-step, and the crank being in motion at the time, struck him on the abdomen, throwing him off the car with great violence, on the rail directly in front. The back of his skull, which came in contact with the rail, was badly fractured, and the car, which was still in motion, ran over his body with a sudden jerk, which threw the other young man off, injuring him severely. The deceased expired almost instantly. Mr. Calkins was a young man of much promise, and his loss is severely felt by all who knew him. He was about twenty-two years of age, and was just entering upon what was hoped to be a career of usefulness. His remains were brought home to Seward for burial, and the sad and solemn ceremonies took place on the 5th inst.—*Schoharie Co. Jeffersonian.*

FROM DETROIT TO BOSTON DIRECT.—The Boston *Traveler* of Tuesday says: "It is proposed to lay a broad guage track on the line of the Eastern Railroad from Portland to Boston. The Boston Board of Trade, have received a communication from the Grand Trunk Railroad Company, agreeing to allow their cars to come through in care of the Eastern Company. To build this additional track will cost but $300,000, and the result will be a heavy per centage of freight profits to the Eastern Railroad on their investment—for bulk will not be broken, between Detroit and Boston and the trade between the West and the metropolis over the line will be immense. It is now thought that the proposition will be agreed to by all the parties in interest."

A LIBERAL COLLECTION.—Last Sunday morning Rev. Dr. Adams, of the Madison Square Presbyterian Church, New York, made an earnest appeal in behalf of the American Board of Commissioners of Foreign Missions, the result of which was an impromptu collection of a larger sum than was, perhaps, ever before taken up in an American church, in this manner, for a similar object. Including a sum given during the previous week, the amount collected was *eleven thousand dollars.*

GEN. JACKSON'S REMAINS.—Andrew Jackson writes to the Governor of Tennessee to say that it was the dying request of his father that his remains and those of his wife should be permitted to rest in peace at the Hermitage. Mr. Jackson, therefore, protests against the act of the Legislature for their removal.

SPRING HARROWING AND ROLLING OF WHEAT—EXPERIMENTS WITH MANURES.—As soon as the wheat has commenced to grow vigorously, it should be harrowed carefully with an implement suited for this purpose.—A grass harrow is generally the best adapted for this work, for the teeth are short, and it will break the crust on the surface of the soil without injuring the roots of the wheat plants.

Some judgment and experience are necessary in determining the correct time for performing this operation. If the wheat be harrowed too soon, the straggling plants may be torn up by the roots. If the work is done too late in the season, the young stems may be bruised and broken so much that the harrowing will do more harm than good. The farmer must use his own discretion in this matter. We have always found spring harrowing to succeed best at the time when the crop has fully recovered from the effects of winter, and is beginning to braid strongly.—About this time a number of annual weeds will be springing up from the seed, and the destruction of these by the harrow will be exceedingly beneficial to the wheat.

In preparing for clover and grass seeds, it is necessary to break up the crust which forms on the surface of the field of winter wheat, that the seed may have a mellow bed and some covering. In the sowing of fall wheat, the soil is generally left as rough as is compatible with the growth of the plants. Spring harrowing breaks up these lumps, and the application of the roller pulverizes them completely, and leaves a fine level surface which retains moisture, resists heat, and presents no obstacles to the reaper. Farmers should make experiments with various manures as a top-dressing for wheat. In Belgium, where excellent crops of every kind are raised, the farmers never neglect top-dressing their wheat with a composition of wood, &c. By this means, acreable produce is increased very much. There are large quantities of excellent manure wasted in this country, while the crops are deteriorating for want of such fertilizing ingredients. Gypsum is a Michigan product, and should be used by every farmer in the State, it can be profitably applied to almost every kind of crop.

We advise our rural friends to get in their spring wheat as soon as the soil is fit to receive it; also, to harrow and roll the winter wheat, and to try experiments with various kinds of top-dressing, and note the results.

THE BOLDNESS OF A ROMISH PRIEST.—Prayers were put up in the Romish churches in Washington last Sunday, for the Pope, in his controversy with Louis Napoleon. A clergyman of this denomination, a foreigner, a few months ago, preaching in a church in the neighborhood of this city, took occasion to lament that the people of this country were not compelled by law, as they were in the old country, to kneel and uncover their heads to the host as it passed along the street. But he said the time was coming when this would be done; they had only to wait patiently for it. This was related to me by a gentleman who was present and heard the remarks. I have only to say that the preacher was more bold that prudent.—*Cor. Phil. News.*

ACCORDING to advices from the East, the European trade with Japan has been stopped, in consequence of the manner in which the traffic has been carried on. Some Indian capitalists are reported to have made large profits through the ignorance of the population of the relative value of gold and silver. The people, it is said, were induced to exchange their gold for silver, weight for weight, and the practice was not even checked until they found that the Europeans would not, when occasion required, barter the gold back on similar terms. A gradual appreciation of the gold then took place, but even at the date of last accounts a gain of 40 per cent was being realized by such purchases as could be effected.

CHESS CONGRESS.—A Western Chess Congress is to be held in St. Louis, commencing on the 11th of April next. Of the many players who have been invited *privately*, Messrs. Morphy, Paulsen, Tillson, Dudley, Faber, Pierson, Rowland, &c., have signified their intention of being present. Many others are expected, among whom are Messrs. Morgan, Kennicott, Nicholson and Turner, of Chicago; Smith, French, Schmidt, Merdith and Fosdick, of Cincinnati; Ballard, of Louisville, &c. The Congress will be under the auspices of the St. Louis Chess Club, who have made such arrangements that all who attend will be provided with accommodations *gratis*, while in the city, and treated with a brotherly love.

A TRUTHFUL AND CHEAP BAROMETER.—Take a clean glass bottle and put in it a small quantity of finely pulverized alum. Then fill the bottle with spirits of wine. The alum will be perfectly dissolved by the alcohol, and in clear weather the liquid will be as transparent as the purest water. On the approach of rain or cloudy weather, the alum will be visible in a flaky spiral cloud in the centre of the fluid, reaching from the bottom to the surface. This is a cheap, simple and beautiful barometer, and is placed within the reach of all who wish to possess one. For simplicity of construction, this is altogether superior to the frog barometer in general use in Germany.

ATTEMPT TO BURN UP A WIFE.—On Thursday evening of last week, in New York, Charles Scholl, a German tailor, set fire to the bed upon which his wife was sleeping. She awoke before the flames reached her, and by her screams brought assistance to the house, through which means the flames were soon extinguished.

SAVE YOUR SIGHT!

H. W. ANGER,
PRACTICAL OPTICIAN,

RESPECTFULLY ANNOUNCES TO the Public, that he has imported from RATHENOW, in GERMANY, and now offers for sale, a large assortment of
PERSPECTIVE EYE GLASSES
AND SPECTACLES
of the finest purified flint, which show the clearest and most correct copies. As these glasses permit every ray of light to pass completely through them they will not only enable the party using them, to do the finest eye-work without injury, but will preserve and even strengthen the sight, which very often, by other glasses is ruined.
My SPECTACLES are celebrated for the superior and high optic nature of the glasses, as well as NEATNESS and ELEGANCE of finish, for which they received at the World's Fairs, both Paris and London, the first premiums, (viz: Gold Medals), being the best specimens on exhibition. Many years experience and a thorough knowledge of optics, enable me to select such glasses for those requiring their use, as will ensure entire satisfaction.
Glasses set to order.

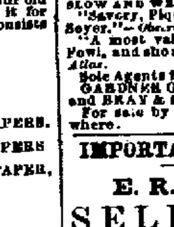
SOYER'S SULTANA'S SAUCE.
For Hot and Cold Dishes of all Kinds.



THIS MOST DELICIOUS and appetising Sauce, invented by the renowned "SOYER," for the London Reform Club, is, since his decease, manufactured by the well known house of CROSSE & BLACKWELL, London, from the original recipe. It is the favorite sauce in England and on the Continent, with a high and growing reputation among American Epicures, and is much approved of as a stimulant to the appetite and aid in digestion.
Opinions of the London Press.
"We recommend our correspondent to try Mons. Soyer's new Sauce, entitled the 'Sultana's Sauce.' It is made after the Turkish recipe; its flavor is excellent, and it affords considerable aid in cases of SLOW AND WEAK DIGESTION."—*The Lancet.*
"Savory, Piquant and Spicy, worthy the genius of Soyer."—*Observer.*
"A most valuable adjunct to Fish, Flesh, and Fowl, and should have a place on every table."—*Atlas.*

This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine Goods, will not readily abandon a business so profitable while purchasers can be imposed on with Goods of a worthless character.

EARLY SNOWDROPS.

BY E. C. HARTLEY.

Early snowdrops! pearls unfolden!
Laughed a blue-eyed child in glee,
Mingled with the crocus golden
Ye shall make a wreath for me!
While the ice is on the river,
And its gushing song is dumb,
Ere the arrowy sunbeams quiver,
As the purple violets come.

Early snowdrops, white and shining,
Said a mother with a sigh,
O'er a little grave you're twining,
Pure as angel's wings on high;
When my soul is tempest driven,
Those starred portals brighten there,
Doth my little Rose in Heaven
Wreathed celestial snowdrops wear?

Early snowdrops, flowers of blessing,
Said a sick girl, bending low,
Shall I see the sun caressing
June's fair roses ere I go;
In my home where Jessamines growing,
O'er the porch where sunrise burst?
But my tears ye urge to flowing,
Early snowdrops, we were first.

Early snowdrops, meek and lowly,
As the thoughts our childhood knew,
Types of faith so high and holy,
Watered by salvation's dew;
Angel flowers to mortals granted,
Teaching men white thoughts to wear,
Children's souls to Heaven transplanted
Once earth's early snowdrops were.

ON A SKELETON.

Behold this ruin! 'Tis a skull,
Once of etherial spirit full!
This narrow cell was life's retreat;
This space was thought's mysterious seat.
What beauteous picture's filled this spot!
What dreams of pleasure, long forgot!
Nor love, nor joy, nor hope, nor fear,
Has left one trace of record here!

Beneath this mouldering canopy
Once shone the bright and busy eye—
But, start not at the dismal void!
If pious love that eye employed,
If with no lawless fire it gleam'd,
But through the dew of kindness beam'd,
That eye shall be for ever bright,
When stars and sun have lost their light.

Here, in this silent cavern, hung
The ready, swift and tuneful tongue.
If falsehood's honey it disclaimed,
And, where it could not praise, was chain'd—
If bold in virtue's cause it spoke,
Yet gentle concord never broke;
That tuneful tongue shall plead for thee
When death unveils eternity.

Say, did the fingers delve the mine,
Or with their envied rubies shine?
To hew the rock, or wear the gem—
Can nothing now avail to them.
But if the page of truth they sought,
Or comfort to the mourner brought,
These hands a richer meed shall claim,
Than all that waits on wealth and fame.

Avails it whether bare or shod,
These feet the path of duty trod?
If from the bowers of joy they fled
To soothe affliction's humbled bed;
If grandeur's guilty bribe they spurn'd,
And home to virtue's lap returned,
These feet, with the heavenly throng on high,
Shall tread the palace of the sky.

TWENTY STEPS
TO ONE WOMAN'S HEART.

STEP SIXTEEN.

But the second sitting was more eventful than the first had been. Now, Frances was placed in the exact *pose* required for the great picture; and to complete the effect, a light drapery was thrown over her velvet robe, and fastened after the antique style on her shoulder. For this purpose, Pembroke Ireton selected from his stores a rare cameo, to which belonged a history. It was one of the undoubted works of Benvenuto Cellini, and had been nearly from his day in the possession of a noble French family, whose late descendant, fleeing from the guillotine in the Reign of Terror had rescued it with some other valuables, to prove his means of existence in exile. Pembroke Ireton purchased the brooch at great cost from the collector, who received it from the noble exile's own hand; and this matchless head of Minerva—for such it represented—had independently of the stamp of its own beauty, an authentic pedigree of its possessors, perhaps to gratify the taste of some belle of the eighteenth century, it had been gorgeously set round with brilliants, but though these were included in the price which Pembroke Ireton cheerfully paid for the brooch, he had ruthlessly broken them away, leaving his treasure in its original chaste simplicity.

Very earnest and very honest were Mr. and Mrs. Crawford's expressions of admiration of this exquisite work, and they were discriminating expressions too, so that the painter felt that his guests understood what they praised; and his pale cheek flushed, and his eye sparkled with pleasure as this sympathy declared itself.

By this time the dusty cobweb-festooned parlor had been something more than "swept out." Pembroke Ireton had felt the incongruity of entertaining his beautiful guest in the lumber-room, and had taken care that needful renovations and preparations should be made; and, on this second occasion, it was with every appointment of elegance and comfort that the trio sat down to their repast. Now, a party of three, where two of the number are a really united married pair, while enjoying the ease and confidence of close companionship, are usually more animated and conversational even than a *tete-a-tete* pair. Thus, merely as a pleasant social meeting this second sitting was to be marked with white in the calendar; but after dinner, when the bright fire, and the soft lamplight, and the presence of his guests, threw a home-charm around Pembroke Ireton, to which he was little accustomed, his nature seemed to melt, and his voice modulated to a tone, as if to speak his long pent up emotions were becoming a necessity to him.

"Not unless I tell you a heavy secret," he exclaimed, addressing Frances, "can you estimate my gladness at discovering you, or my gratitude for your compliance with my wishes."

"I feel it an honor," replied Mr. Crawford, "that Frances should be immortalized by so great a painter. Dear sir, never mention gratitude again!"

"But I must," continued Pembroke Ireton with visible emotion—"I must: even one year hence might have been too late. The great painter—what a mockery! in a little while to be the desolate, afflicted old man! My friends!" he added with forced composure, "I am losing my sight—physicians own it to me: unless I give up painting I shall be blind in two or three years."

"Then," exclaimed Frances in a thrilling tone of entreaty—"then, in pity to yourself, paint no more: cease from this hour. What is Art to sight?"

"Never!" replied the painter vehemently. "For Art, long years ago, I gave up more than life and sight, though in my young, hot enthusiasm, I knew not what I relinquished; and to the last, Art shall have me—it claims even the dregs of my being."

"Pembroke Ireton has done enough for fame," said Mr. Crawford.

"Fame! Art has been my mistress; if she brought her handmaiden, Fame, I could not help it. It is a noisy busybody, hindering as often as helping. But life is not long enough to do true service to Art. Surely I do not grudge a pair of eyes, that have been but treacherous servants since, five-and-twenty years ago, they were exposed for two nights and days to the glare of Alpine snows. You wonder at this, my sweet young friend: it is the brain that paints, not the eye and the hand."

But Frances was overcome by a deeper emotion than wonder. That same perilous journey of early life which had laid the foundation of her father's affliction, had similarly affected the twin brother; and thus that apparently inseparable pair, whom yet strange circumstances had divided, seemed still to be mysteriously united by a common misfortune. "I am not wondering," she replied, trying to speak calmly; "I am only sorrowing, and thinking of a strange coincidence.—My own dear father is blind—thus afflicted in consequence of a similar accident to yours—being lost in the snows of Switzerland when travelling in his youth in search of grand scenery."

"How strange!" mused the painter.

"You must know him," continued Frances in trembling tones: "you are formed to be friends, companions to each other. Ah, you must know my father; he, too, loved Art most dearly."

"And now?" asked Pembroke Ireton.

"He is happy though blind," returned the daughter, with a sort of cruel kindness towards her hearer—"happy, because our love, that seemed before too vast for increase, still grew as his sight waned; and the wealth of the heart outweighs the wealth of the senses. It seems to me a beautiful dispensation of Providence, that this heavy affliction has fallen where every surrounding circumstance lightens and elevates it. Had my father been lonely and childless, how much more terrible would have been his lot!"

There was a minute's silence. With the morbid sensitiveness of a recluse, and the keen perception of one who, if only for the purposes of his art, had been accustomed to anatomize the passions, Pembroke Ireton shrank from a display that might have bro't about "a scene." Stifled sobs made thick his breathing, and assuaging tears were rising to his eyes, but he controlled these evidences of emotion, and suddenly, and with a sort of set phrases, changed the discourse.

"Your father must indeed be a happy man," he exclaimed with forced calmness; "despite his bereavement: yet had I known, dear madam, that my selfish outpourings would have led to this sorrowful subject, indeed I would have refrained."

"Nay," replied Frances, not wholly sorrowful to me; and is not sympathy, warm sympathy, a consolation to you?"

"I am not sure—perhaps not. Do no think me ungrateful; but I will not speak of my trouble again. A little more wine, Mrs. Crawford; pray, half a glass, and let me prepare an orange for you!"

IF WE SUPPOSED THESE HIGHFALUTING, lying advertisements about Lumber were believed, we should go right out of the business. Our experience is, however, that men who want to buy lumber have full as many brains as those who want to sell—only a board and scantling left;—and twenty per cent. knocked off from them—how it does make us feel?

BININGER'S
OLD LONDON DOCK
GIN

A. M. BININGER & CO.,
(ESTABLISHED 1778.)
SOLE IMPORTERS
No. 338 Broad Street, New York.

THIS DELICIOUS TONIC, ESPECIALLY for the use of the

Medical Profession and the Family,

Possesses those INTRINSIC medicinal properties (Tonic and Diuretic) which belong to an

OLD AND PURE GIN.

The business of manufacturing spurious Gins, and offering them as beverages, under the titles, "Aromatic," "Cordial," "Medicated," &c., has become so common that the public are justly suspicious of nearly everything that is offered under similar forms, and the trade has thus been brought into disrepute. It has remained for our house (established in 1778) to supply the pressing popular need, and to inaugurate a new era in the history of the Trade. We trust that our established reputation—founded upon eighty years of experience—abundantly vindicates our claim to public confidence.

N. B.

A comparison of "Bininger's (Old London Dock Gin" with others bearing similar names, will establish its superiority, and make other Caution unnecessary.

The tendency of the wheat market to-day was downward, especially for milling qualities, which declined 1c. No. 1 held its own, if we may judge from the transactions reported, selling on the track at $1. Extra sold at $1,04@1,05. The sales include 10,000 bus No. 1, f. o. b. in May, at $1,05. Some 20,000 bushels in all changed hands.

Flour was less active than yesterday, but not quotably lower. We hear of sales of some 500 bbls at $4,-60@4,75 for superfine to common country Extras. No change in coarse grains.

The receipts of flour and wheat for the week, it will be noticed, are much larger than for any preceding week since November last

Chicago Wholesale Market.—The receipts of the articles named, at Chicago yesterday, were as follows

Flour, bbls	1,321
Wheat, bus	18,514
Corn, bus	32,593
Oats, bus	6,815
Barley, bus	2,514
Rye, bus	403

The *Press & Tribune* says:

The Flour market continues dull and heavy, with but little inquiry for shipments. The receipts to-day were heavy, and the sales very limited, at $4,55@5,25 for common to choice Spring extras, and $4@4,15 for Spring superfine. There was a better demand for wheat at yesterday's prices, but there was no advance, and the market closed quiet, sales being made at $1,02 for new receipts No. 1 Spring in store; 96c for old receipts No. 2 Spring; and 97c for new receipts of the same grade. The inquiry for parcels on track by millers and shippers was better, and sales ranged from 97@103c for common to good, and $1,05@1,07½ for club. A lot of 1,000 bus. No. 1 Red was sold at $1,12½ delivered at Niles, Michigan. The receipts of Corn to-day were comparatively light, and under a good speculative inquiry, an advance of ½c took place; the market closing firm at the outside quotations—sales being made at 44½@45c for prime River in store; 43@43½c for Canal afloat; 43@43½c for new receipts No. 1; 41@41½c for No. 2; and 40½@40½c for Rejected. Oats were in better demand and the market was a shade better, with sales on track at 34@35c, and in store at 31c for old receipts, and 32c for new receipts. Rye quiet. Barley more active and steady. Highwines quiet and nominal at 19½@19½c. Clover Seed 5c lower, with liberal sales at $4,00@4,12½c. Timothy Seed was in good demand, but prime lots were scarce—sales of inferior to choice being made at $2,70@2,90. Hungarian Grass dull. Provisions quiet. A lot of clear Sides was sold at 9c loose, and country Shoulders and Hams at 6c, and 5c loose.

Cincinnati Market, March 15th.—The *Commercial* of Friday, says:

Flour is dull, and to effect sales it is necessary that concessions should be made in prices. Quotations as reported are quite irregular, and full up to the best that can be had.

Wheat remains firm, though the demand is rather lighter than yesterday; however, it is and has been mainly confined to the city. No change is noticeable in other grain.

Whiskey is firm at 19c.

The provision market displays an animated appearance, and transactions were much more free than for some days hitherto in cut meats and in lard. The latter appeared to be particularly in favor, and sales reported were large, viz: 1,605 tierces and bbls at 10¼—1,000 in one lot—1,000 kegs at 11c. This is an advance on yesterday's quotations, a knowledge of which at once put holders in a position of reserve, and 10¼@10⅜ were afterward the asking figures.

The sales of Bulk Meat were large, running as follows: 40,000 ℔s clear sides delivered at 9 5-6; 50,000 ℔s averaging 40 ℔s ribbed, April 1st, at 8½c; 50,000 ℔s at 5⅞c; 50,000 ℔s at 5¾, and 50,000 ℔s at 8⅝c; of Bacon there were sold 50 hhds shoulders at 7⅛c, 55 hhds clear sides at 10⅛c, and 80 hhds sides at 9⅞c.—The business doing in meat is mainly for consumption, very little speculative feeling being apparent, usually from such a quiet condition as the trade has rested in for several days heretofore; Mess Pork is quiet, the asking figure is $17,50 per bbl, and city brands are not easily had at a less figure.

OFFICE OF THE DAILY SENTINEL,
Saturday, P. M., March 17.

The feature of the past week in commercial matters, was the sudden turn in the wheat market, which took place on Wednesday. Up to that time the market continued firm with an upward tendency, No. 1 reaching $1,06 in store, and Extra $1,12½; and there were some sales of No. 1 for delivery May 1st, as high as $1,10@1,12½, both in store and on board. Since then the market for No. 1 has declined fully 5c, and for Extra 7@8c, these qualities respectively selling to-day at $1 and $1,04@1,05. Some parties who had bought largely along back, on the supposition of still higher prices, becoming alarmed at the appearance of things, sold out at a heavy loss, while others, looking upon the decline as nothing more than a slight re-action, which closing markets are always subject to, improved the occasion to make large investments.

The flour market, with the exception of two or three days, has been quiet, but did not experience so heavy a decline as wheat. Yesterday, some 1,600 bbls country extra changed hands at $4,75@$5@$5,10 for fair to choice brands, and about 550 to-day, at the same figure.

Coarse grains of all kinds have been very dull. Barley has declined 3@5c, brewers limiting their prices during the last few days to 65c for the best qualities. Oats scarce, but unchanged. Corn 50@52c. Rye very scarce and worth 75@80c. There is not enough of any description of grain coming to market exclusive of wheat, to create any demand except for local use.

We omit this week our usual prices current of general articles, but there has been no change either in dry goods or groceries. The general wholesale trade is improving satisfactorily, and our streets begin to wear unmistakable signs of returning business activity.

Below will be found the principal transactions of the week in the produce markets:

CITY LAND OFFICE.

NOTICE TO ALL OWNERS OF HOUSES.—Enquiries are made continually at our office, from day to day, "Have you a good house to rent first of May?" We would therefore suggest to all who have houses to rent first May, to send us a list of same, and how long you will lease them, and what price. We will make a record of the same and try and find good tenants who will pay punctually. And, if desired, for a certain per cent., will guarantee the rent of all tenants, which will save the landlord much trouble. We intend to give this business our special attention. All who desire us to take charge of their property, please send us a list immediately.

JUNIUS JUDSON,
PATENTEE AND MANUFACTURER OF
JUDSON'S PATENT
GOVERNOR VALVES,
FOR REGULATING THE
MOTION OF STEAM ENGINES,

WARRANTED THE MOST PERFECT Governor of Steam Power in the world, and like all really great inventions, the most simple. Manufactured by Judson & Snow, at Rochester, N. Y., Selye Buildings, near R. R. Depot.

☞ Shop Rights for sale.

CAUTION TO INFRINGERS.

Patent issued in the United States, Nov. 5th, 1850. Reissued, Jan. 4th, 1854. Second Patent, March 4th, 1851. Patented also in Great Britain and the Canadas, June 6th 1851.

This improvement consists in making regulating valves to open with a rapidly increasing ratio of opening, by increasing the width of the opening made in the valve—or by accelerating the opening motion of the ordinary valves in use—or by combining increased width of opening, with accelerated valve motion. My patent Valves and Governors are so arranged as to give the resistance to the piston's motion, (or retard of the engine,) the power to open the valve just the exact amount of aperature necessary to counteract that resistance; and from the aperture, by the addition of equal amounts of resistance, notwithstanding that the action of the governor is continually decreasing in its effects.

I therefore reverse the action of valves combined with governors, as heretofore used. And as this effect can be produced by many different mechanical devices, (apparently not similar, but really indentical with my improvement,) by which infringers have imposed upon the public, I therefore caution and request all persons interested, to examine carefully all alleged improvements in valves or governors, to see if the application of this truth or principle, first discovered and applied by me, is not involved in their arrangements;—and thereby prevent a fraud upon the purchaser and inventor, both of which are at present much annoyed by their piratical depredations. Medical.

THE GREATEST
MEDICAL
DISCOVERY
OF THE AGE.

MR. KENNEDY, OF ROXBURY, HAS discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR
FROM
THE WORST SCROFULA DOWN TO A COMMON PIMPLE.

He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the stomach.

Three or five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three or four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother.

NURSING SORE MOUTH

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to your husband and household.

In the more advanced stages of

CANKER

it extends to the stomach, causing

DYSPEPSIA

which is nothing but canker on the stomach; then on the intestines and

KIDNEYS

creating a sinking, goneifeeling, and an indifference even to the cares of your family.

Your stomach is

RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follows a train of diseases which the Medical Discovery is peculiarly adapted to

CURE;

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "an ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,

DONALD KENNEDY.

DR. CHURCHILL'S REMEDY.

WINCHESTER'S GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,
(Made from the Formula of Dr. J. F. Churchill,)
FOR THE PREVENTION AND CURE OF

CONSUMPTION!

THE SUCCESS OF THIS NEW REMEDY, (discovered by Dr. Churchill, of Paris,) is obtaining the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases.

This *Remedy* has not only a curative effect, but will, if used wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act, *as a preservative with regard to Consumption, just as vaccination does with regard to small-pox.*

What the Medical Profession Say.

"In no instance have I found the Remedy to fail."—*Dr. Churchill.*

"I have used your preparation of the Hypophosphites *with the most happy effect.*"—*C. Fisher, M. D., Lynville, Ill.*

"*I have been astonished in witnessing the good effects of the Hypophosphites.* The statements in your pamphlet are not at all exaggerated. My patient was just entering the last stage of tubercular consumption."—*S. Moses, M. D., Hoosic Falls, N. Y.*

"They exert an important remedial influence over the tubercular disease by *improving the nervous strength and invigorating the nutritive functions.*"—*Dr. W. E. Bust, Morristown, N. J.*

"I have derived more satisfaction from the use of your Hypophosphites *than from all other forms of medication combined.*"—*Dr. Geo. W. Maris, Columbus, O.*

"If, on the earliest appearance of the symptoms, the patient takes daily about ten grains of the Hypophosphites, he will speedily find himself in the enjoyment of such health as he, perhaps, had never known in his life before."

"Winchester's Hypophosphites are unexceptional in their preparation."—*Am. Druggists' Circular.*

"Mr. Winchester is worthy of all confidence, and devotes himself enthusiastically to these preparations in all their variety of combination. * * * Prepared strictly by Dr. Churchill's method."—*D. Meredith Reese, M. D., New York.*

"Lowell, O., July 5, 1859 —I have had several cases given up by attending physicians who are now exempt from all the symptoms of pulmonary disease.—I have used the Remedy in my own case, with decided success. It was regarded as hopeless by physicians and friends, and even by myself, under the 'old treatment.' I am now able to ride, in attending the sick, as many miles, perhaps, in a day, as any other physician in the country."—W. F. Clark, M. D.

"The Hypophosphites are most appropriate Remedies in large class of affections resulting from loss of nervous force."—Boston Medical and Surgical Journal.

Dr. Churchill's Work on Consumption,
IS NOW READY.

The Hypophosphites may be used with incurable success in Chronic Bronchitis, Asthma, Dyspepsia, and in all "Nervous" Disorders.

Make no Delay!

Consumptives, in any stage of the disease, should resort immediately to the use of the Hypophosphites of Lime and Soda. "Winchester's Genuine Preparation" (in simple syrup), in extra large bottles, is "chemically pure"; is the combination proposed by Dr. Churchill "for general use"; and is prepared according to his original Formula.

For sale, Wholesale and Retail, by HENRY FESS, Jr., Milwaukee, who is authorised to supply THE TRADE at New York prices.

For sale at Retail by J. M. ALCOTT, and by all prominent Druggists.

AYER'S CHERRY PECTORAL.

THROUGH A TRIAL OF many years and through every nation of civilized men, AYER'S CHERRY PECTORAL has been found to afford more relief and to cure more cases of pulmonary disease than any other remedy known to mankind. Cases of apparently settled consumption have been cured by it, and thousands of sufferers who were deemed beyond the reach of human aid have been restored to their friends and usefulness, to sound health and the enjoyments of life, by this all-powerful antidote to diseases of the lungs and throat.—The dry, hacking cough, the glassy eye, and the pale, thin features of him who was lately lusty and strong, whisper to all but him CONSUMPTION. He tries every thing; but the disease is knawing at his vitals, and shows its fatal symptoms more and more over all his frame. He is taking the CHERRY PECTORAL now; it has stopped his cough and made his breathing easy; his sleep is sound at night; his appetite returns, and with it his strength. The dart which pierced his side is broken. Scarcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues which have won for the CHERRY PECTORAL an imperishable renown. But its usefulness does not end here. Nay, it accomplishes more by prevention than cure. The countless colds and coughs which it cures are the seed which would have ripened into a dreadful harvest of incurable diseases. Influenza, Croup, Bronchitis, Hoarseness, Pleurisy, Whooping Cough, and all irritations of the throat and lungs are easily cured by the CHERRY PECTORAL if taken in season. Every family should have it by them, and they will find it an invaluable protection from the insidious prowler which carries off the parent sheep from many a flock, the darling lamb from many a home.

Authenticated evidence of these facts, with directions for the treatment of each complaint, may be found in Ayer's American Almanac, of which we publish three millions, and scatter them broadcast over the earth, in order that the sick everywhere may have before them the information it contains.—Druggists and dealers in medicine generally have them for distribution gratis, and also for sale these remedies, prepared by Dr. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass.

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four-fifths of all the diseases which people the church yards, might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the Headache, Heartburn, and their kindred disorders, because the stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores, and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your Stomach and Bowels need strengthening into healthy action.—Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healthy activity which you can feel as quickly as they are taken.—They are the one great medical wonder of the age, recognized by all who know their virtues, and many thousands know them. Take the Cherry Pectoral for a cough, and the Pills for all derangements requiring a purgative medicine.

Prepared by JAMES C. AYER, Practical and Analytical Chemist, Lowell, Mass., and sold by JOHN RICE, Milwaukee, J. H. REED & CO., Chicago, and all Dealers in Medicine everywhere.
